## Band-Info

*(2.102 characters – 340 words in continuous text)*

Classical Bay Area Metal á la Death Angel meets Forbidden, flavored with a touch of Nevermore. Powerful riffs, catchy hooklines and some very melodic guitar tunes. All this combined with a quite unique and absolutely stunning female voice – that's how best to describe the music of Germany-based Red To Grey.

The band's newest output "Balance Of Power" was released on October 22<sup>nd</sup>, 2021 by El Puerto Records. The album has been recorded by Mario Lochert at Serious Black Studios, Kirchseeon, Germany. Mixing and Mastering was done by Jan Vacik at Dreamsound Studios in Munich, Germany.

Located in Southern Germany within and around the Munich Metropolitan Area, Red To Grey were founded in April 1998. Starting with a male singer and releasing several albums, as well as playing numerous shows in the following years, the band decided switching to female vocals in 2012.

Still within the founding year, the first Demo-CD "Circle Of Pain" was recorded and after being published in early 1999, gathered very positive reviews in nearly all the important magazines.

Same goes for the first official, full-length Red To Grey album "Wrath Of The Weak", issued 2001 by Black Arrow Records/Point

Red To Grey's third album "Admissions" was released 2008 via Bad Land Records/Twilight. "Admissions", being the last album featuring original singer Andy Pankratz, can be considered the apex of the band's musical evolution in their earlier years.

In 2012 a new era broke for the band, as Gaby Weihmayer joined Red To Grey on vocals. Her first contribution as the new singer can be heard on the 5-track live EP "Thrash you a.L.I.V.E.", issued by the band in the year 2013.

The latest output "Balance Of Power", available since October 22<sup>nd</sup>, 2021, is Red To Grey's first full-length studio album featuring Gaby Weihmayer on vocals.

During their long history – already more than 23 years – the band played many shows all over Germany and the surrounding countries. Often supporting well-known names, the like of Vicious Rumors, Helstar, Equilibrium, Brainstorm, Debauchery, Tankard, Death Angel and many more.
